KENS TOURS · AFFILIATES PACKAGE

Affiliate rate correction *refund schedule*

Between June and October, some affiliate bookings made for tours starting between 10:00 am and 2:00 pm were charged the **May–October price of $52 per guest** instead of the **June–December standard price of $49**. Every booking was charged exactly what its own price said — the issue was which price list it was given. That rule is now fixed; this document lists what each affected booking is owed.

ALREADY REFUNDED

$47.60

6 Ajoy Tours bookings were spotted and refunded by hand by Kens and NAT staff in September and October.

STILL TO REFUND

$884.00

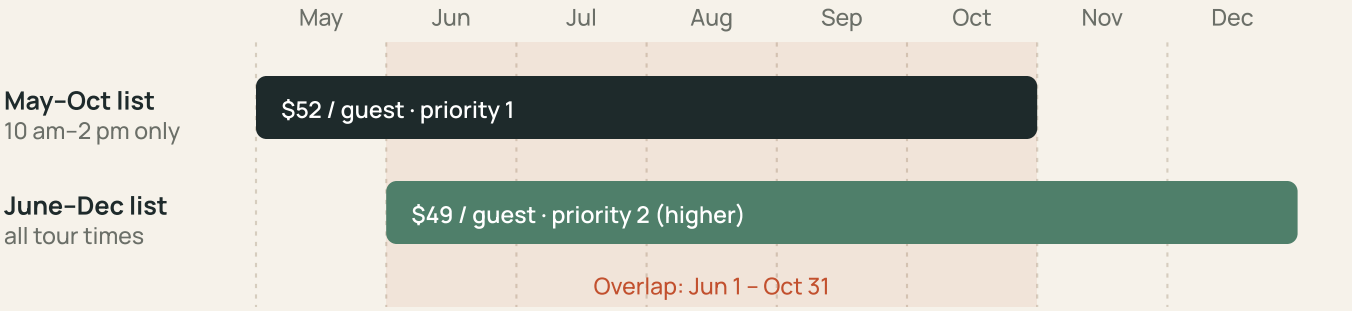

31 bookings across Empire Vacations, Ajoy Tours and Max Tour — listed booking by booking on pages 4 and 5.

Before refunding: please confirm $49 was the agreed June–December price for **Empire Vacations** and **Max Tour** as well — their bookings make up most of the amount still owed.

01 · WHAT HAPPENED

Two price lists covered the same dates

Each affiliate had two price lists for this tour. From June to October they overlapped. The June–December list was given the higher priority so it would take over from June — but for tours between 10 am and 2 pm the system always used the time-specific May–October list instead, whatever its priority.

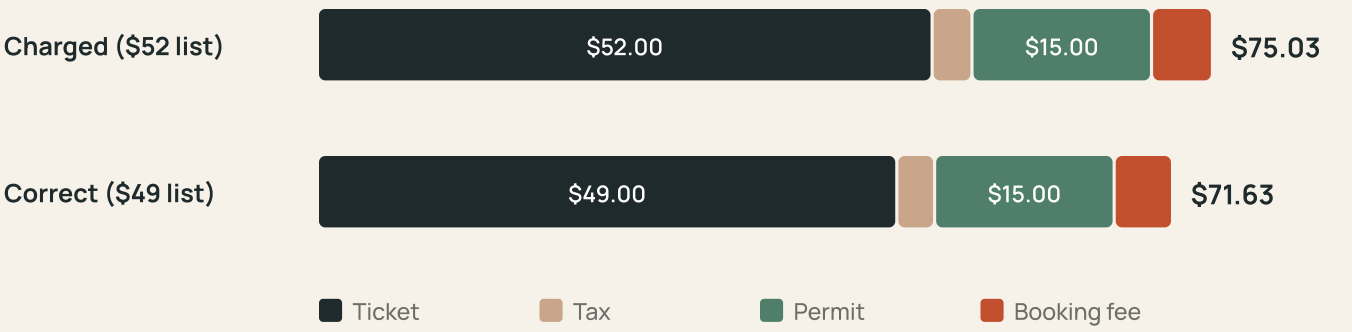

Before the fix
The 10 am–2 pm list always won → $52

After the fix
The higher-priority list wins → $49

WHAT ONE GUEST PAID

Permit fee is the same on both lists; the ticket, its tax and the booking fee were each slightly higher.

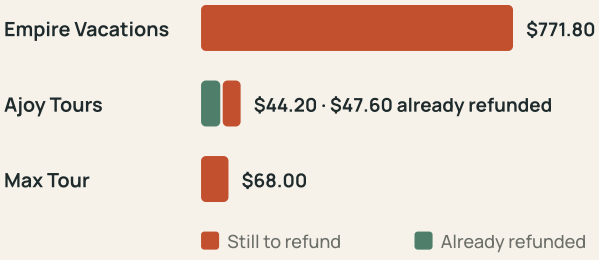

$3.40 more per guest — **$3.18** ticket and tax (operator) plus **$0.22** booking fee (NAT). A 2-guest booking paid **$150.06** instead of **$143.26**.

Subtotal · 21 bookings		**227**		**$771.80**

KEN-307767 originally paid $1,350.54 for 18 guests; one guest was later removed and refunded $75.03, so the refund covers the 17 remaining guests. KEN-363158 and KEN-368050 were booked for 2:00 pm and later moved to 2:30 pm by staff, keeping their original price.

How these figures were checked

1. **Each booking against its own price.** All 37 bookings were charged exactly what their own price list said — there were no calculation mistakes. The only problem was which list was chosen.
2. **Against the live booking data.** Every amount here was produced by a read-only database query run on a copy of the live Kens data, using the same rounding as the booking system. The query can be re-run before refunding to confirm nothing has changed.
3. **Against refunds already made.** Earlier manual refunds are subtracted, so no booking is refunded twice.

Not affected

- **KEN-368745, KEN-389813, KEN-389814, KEN-389817** (Ajoy Tours, Oct 17) — charged the correct $49 price.
- **CHD** — both of its price lists are $48, so nothing changes.
- Bookings made for tours outside 10 am–2 pm, and all tours from November onwards.

Next steps

1

Kens confirms $49 was the agreed June–December price for Empire Vacations and Max Tour.

2

Fix goes live so remaining October bookings between 10 am and 2 pm are priced at $49.

3

Refunds issued — 31 bookings, $884.00 — then the query is re-run to confirm every balance is zero.
